Author: Almanova Ann Dionisovna

Supervisor: Professor Astvatsaturova Maya Artashesovna.

Information about customer organization: the administration of the administration of the municipality Suvorovsky selsovet.

Topicality of the research.

The relevance of the research topic is due to the fact that management is carried out in all areas of the state and society. One of the important directions of social management is the management of the organization of cultural space for citizens at the level of local government. The need to improve the quality of the cultural sphere of municipalities is noted in the strategic documents of the Russian Federation, namely: "Strategy of the state cultural policy for the period up to 2030"; presidential Decrees on the year of culture, the Year of literature, the Year of theater in Russia.

The research objective - to generalize management process in the sphere of the organization of cultural space of municipality and to offer ways of optimization of administrative activity of administration of Suvorovsky selsovet on the organization of cultural space.

Tasks of the research:
- to carry out theoretical and methodological understanding of local self-government on the basis of its basic theories;
- to study the legal framework of management at the level of municipal formation in the Russian Federation in the aspect of the organization of cultural space;
- consider the cultural space of the municipality of the village Suvorov Stavropol territory as an object of management;
- to study the infrastructure basis of the administration Suvorovsky selsovet in the field of cultural space management;
- to trace implementation of target municipal programs on the organization of cultural space by administration Suvorovsky selsovet;
- to offer measures of optimization of administrative activity of administration of the Suvorov village Council on the organization of cultural space.

The object of research the cultural space of the municipality of the Suvorovsky selsovet of the Stavropol territory.

The subject of research - the process of management of the administration of the municipality of the village Suvorovskaya on the organization of cultural space.

Theoretical and methodological basis of the research. The theoretical basis of the study was:
- well-known ideas and concepts of local self-government, as well as management at the municipal level, reflected in the works of the following Russian
scientists, well-known theorists of management processes, such as I. A. Alekseev, O. M. Roy, O. F. Shabrov, A. I. Ponamarev, A. V. Ponedelkov; collective monograph by A.V. Babayan, A.V. Grigorieva , E. V. Efimova, V. I. Shulzhenko; materials of scientific and practical conferences, including articles by scientists of scientific and educational centers of the southern and North Caucasus Federal districts, Moscow, St. Petersburg, representatives of authorities and management, municipal employees, which considered the problems and prospects of practical implementation of local government reform in modern Russia. Research methods: analysis, synthesis, generalization, classification and comparison

Theoretical and practical significance. The theoretical significance of the study lies in the fact that the results of this work allow to develop and deepen the theoretical ideas in the field of management of the cultural space of the municipality. The practical significance of the study is the possibility of applying the proposed recommendations to improve the management process in the field of the organization of the cultural space of the municipality in terms of improving the efficiency of management in the field of cultural space
