Chair of the Theoretical Linguistics and Practice of Intercultural Communication.

**Author:** Evgazhukova Marina KHabasovna

**Main parts:** Contents, Introduction, two Chapters, Conclusion, Bibliography, List of Reference Literature and Internet Resources.

**Key words:** colour phraseological units, colour naming, colour, subject nominees, colour component, semantic analysis, associated perception, expressive and emotional characteristics, the Spanish language.

The aim of the present thesis is to describe the phraseological units with colour component of the Spanish language in the linguoculturological aspect.

**Chapter I** discusses the theoretical foundations of the study of the idioms of the Spanish language with the colour component", the concept of "phraseology", "colour phraseology". It presents national and cultural characteristics of colour phraseology in the Spanish language. Considered the colour category as a component of phraseology containing colour terms .Revealed theoretical approaches to the study of phraseological units with the component colours.

**Chapter II** presents a research of semantic, grammatical and etymological features of Spanish phraseological units with colour component. The given phraseological units are viewed from the perspective of frequency of one or another colour. Main lexical sets of colour phraseological units are found out in the Spanish language. The semantic significance of colours made up of phraseological units come to light. The performed analysis defines the role of colour phraseological units in both the formation and the development of the language.
