3. SUMMARY

Subject matter: The legal principles of the operation of the religious associations in the Republic of Ingushetia.

Author: Bolkoev Ibragim Musaevich

Supervisor of studies: Osipov Stanislav Konstantinovich, candidate of philosophy, associate professor, chair of historical and socio-philosophical disciplines, oriental studies and theology.

Customer organization: The centralized religious organization “The Center of the Moslems of the Republic of Ingushetia”.

Topicality of the research: In the last decade of the XX century the development of the Russian state and society was conditioned by the political-transformational processes that affected all the spheres of public activity, including the sphere of the interrelationships between the state and religions associations. The policy of state atheism gave way to the democratic solution of the religious problem that gave Russia’s citizens the opportunity for free philosophical and confessional self-determination. The Russian legislation on the freedom of conscience, confession and religious associations for the last two decades has undergone considerable changes aimed at the provision of religious safety. In these conditions the problem of the full-valued realization of the freedom of confession, individual protection from various forms of ideological pressure which affects the state of other rights and freedoms, formation of civil society and the state governed by law becomes challenging.

Objective of the research: on the basis of the research into the legal foundations of the work of the religious associations and the freedom of confession operating in the Republic of Ingushetia, to spot the emerging theoretical and
practical problems and develop legal recommendations for the improvement in the federal and regional legislation in the religious sphere.

Tasks:
1. On the basis of the critical analysis of the previous researches to examine the essence and typology of religious associations.
2. To study the stages and spot the historical-legal specific features of the formation of the state-confessional relations in the Republic of Ingushetia.
3. To research into the legal status of the religious associations in the Republic of Ingushetia.
4. To research into the constitutional and legal status of the religious associations in the Republic of Ingushetia and the specific features of the regulation of their activity.
5. To research into the practice of the realization of the freedom of confession in the Republic of Ingushetia, to spot and analyze the legal conflicts related to the realization of the freedom of confession.
6. To analyze the activity of the religious associations in the Republic of Ingushetia, to detect the problem zones and form recommendations for their solution.

Theoretical and practical significance of the research: The development of the legal principles of the freedom of confession and the work of the religious associations in the Russian Federation including the normative building and legal enforcement practice in the Republic of Ingushetia realized in the research contributes to the discovery of the legal essence of the freedom of confession as an independent element of the system of the constitutional rights and individual freedoms.

Practical significance of the research is that its conclusions and recommendations can be used for the improvement in the legislation and law enforcement practice in the sphere of the provision of the freedom of confession and regulation of the work of the religious associations in the Republic of Ingushetia.
**Results of the research:** In the research under consideration we have made an attempt to analyze the problems of the legal regulation of the relations between the state and religious associations in the Republic of Ingushetia. On the basis of the conducted analysis of various approaches to the assessment of this phenomenon and also considering the legal researches and into generalizations of the empirical material we the religious legal situation in the Republic of Ingushetia. So, having analyzed the problems of the constitutional-legal regulation and practice of the realization of the freedom of confession and work of the religious associations, we have detected the legal conflicts emerging on the religious soil, and also the problems of the improvement in the regional legislation on the freedom of conscience, confession and religious associations.

**Recommendations:** We have proposed the draft solution to the problem of raising the religious – legal literacy level of the population.
