

ABSTRACT OF THE FINAL QUALIFICATION WORK

Subject of the final qualification work: Phraseologisms of the Spanish language with a component-zoonym

Author of the final qualification work: Kolosova Aleksandra

Research supervisor of the final qualification work: PhD, Associate Professor of the Department of linguocommunicativistics and applied foreign languages O.I. Martynenko

Data on the customer organization: The center of tourist researchers “Life travel” Co., Ltd

The relevance of the subject of the research is conditioned by the need of the complex study of phraseological units with a component-zoonym in the Spanish language that allow to uncover their lexical and semantic, as well as structural and grammatical features in order to study the common and specific features of the Spanish and Russian language cultures.

The aim of the work is to study the peculiarities of the phraseological units of the Spanish language with the component-zoonym, which implies their consideration from the point of view of the lexico-semantic and structural-grammatical peculiarities.

Tasks:

- 1) to substantiate the scientific and theoretical bases of the study of the phraseological units of the Spanish language with a component-zoonym;
- 2) to consider the phraseological units with a components-zoonym in the language system;
- 3) to expose the concept of phraseological units with a component-zoonym and to study the experience of their classification in scientific investigations;
- 4) to carry out the lexico-grammatical analysis of the phraseological units of the Spanish language with a component-zoonym;
- 5) to identify the lexical and semantic, as well as structural and grammatical features of the phraseological units of the Spanish language with a component-zoonym.

The scientific novelty is that the complex lexico-grammatical analysis of the

phraseological units of the Spanish language with a zoonym component was presented in the work which consisted in studying the lexical and semantic, as well as structural and grammatical peculiarities of these phraseological units. Such a complex study allowed us to consider the correlation of the language-as-a-system and speech aspects of the phraseological units being studied on a specific material.

The theoretical importance of the research consists in the fact that the place of the phraseological units with a component-zoonym in the language system is disclosed, the notion of the phraseological units with a component-zoonym is given, the experience of their classification in scientific investigations is studied. The obtained results of the research supplement the modern theory of phraseology and can be used in further studies.

The practical value of the research is based on the results of the research, "The electronic glossary of the phraseological units of the Spanish language with a component-zoonym", based on the thematic division of the presented phraseological units according to the principle of their lexico-semantic classification, was compiled. Thus, the obtained results can be used as a reference and educational material for teaching the Spanish language, as well as for developing the theoretical and practical courses of intercultural communication, linguoculturology, theory and practice of translation, and the lexicology of the Spanish language.

The results of the research:

1. The scientific and theoretical bases of the research of the phraseological units of the Spanish language with a component-zoonym have been grounded.
2. The phraseological units with a component-zoonym in the language system have been considered.
3. The concept of the phraseological units with a component-zoonym has been disclosed, the experience of their classification in scientific research has been studied.
4. The lexico-grammatical analysis of the phraseological units of the Spanish language with the component-zoonym has been carried out.
5. The lexical and semantic, as well as structural and grammatical features of the phraseological units of the Spanish language with a component-zoonym have been revealed.
