Summary

Subject matter: Formation and realization of the strategy of socio-economic development (on the example of the Northern Caucasus Federal District).

Author: Shkvaryuk Mikhail Mikhailovich.

Supervisor of studies: Kiselyova Natalia Nikolaevna, doctor of economic sciences, professor.

Customer organization: Interregional Board of the Ministry of Regional Development of the NCFD with the RF.

Topicality of the research: is conditioned by the fact that the NCFD is a new district in the RF today and has a complicated socio-economic and geopolitical position. This position of the district is determined by a huge number of the jobless population. At present the Northern Caucasus where the strategic struggle for the future markets and resources is gaining momentum as the most important transport lines for the hydrocarbon raw materials will go through the territory of the district from the Caspian Sea area and the Middle Asia. Despite the fact that during the last years Russia’s federal center has been taking measures to improve the socio-economic and political situation in the NCFD (high subsidies to the republican budgets, money allocated for the realization of the FTP, regime of the free economic zone – Republic of Ingushetia), the republics of the NCFD are noticeably lacking behind concerning the volumes and paces of growth of the industrial and agricultural production.

Tasks:
- to study the domestic and foreign experience of the strategic planning of territorial development;
- to study the mechanisms of the coordination of the strategic plans of various levels;
- to submit the mechanism of the integration of the procedures of budgetary planning with the system of strategic management of the socio-economic development of the macro region (NCFD);
-to submit the system of monitoring and correction of the achievement of the strategic goals and tasks of the macro region;
- to submit the model of the evaluation of the degree of the achievement of the strategic goals of the development of the macro region;
- to propose the methodology of the strategic management of the development of the macro region.

**Theoretical significance of the research:** is the application of the works of the domestic and foreign scientific in the part of the solution of the problems of the territorial organization of economic activity to the strategy of the socio-economic development a Russian’s Regions.

**Practical significance of the research:** is the possibility of the use of the proposed measures on the improvement of the strategy of the socio-economic development of the macro region (NCFD).

**Results of the research:** The discovery of the theoretical and methodological aspects of the formation and realization of the strategy of the socio-economic development of the macro region on the example of the NCFD.

**Recommendations:** 1. Elaboration of the universal standard of the writing of the strategies of socio-economic development; 2. Coordination of the priorities of the development of the regions by dividing specializations; 3. To heighten the level of professional training of “strategists” by taking a university course in public and municipal administration.
